Terms of Acceptance

When a client seeks acupuncture health care and I accept a patient for such care, it is essential for both to be working toward the same objectives.

Acupuncture is focused upon a few goals: to detect and correct the quality, quantity and balance of Qi, Blood, and other body fluids. When this is done correctly, the body will have the capacity to obtain and maintain health and well-being.

It is important that each client understand the objective and the method that will be used to attain it. This will prevent any confusion or disappointment.

Acupoint stimulation: The insertion of sterile acupuncture needles cause a specific stimulation of an acupoint. This will facilitate the normal and balanced flow of Qi through the Meridian pathways.

Health: A state of optimal physical, mental and spiritual well-being, not merely the absence of infirmity.

Qi imbalance: When the quality, quantity and balance of Qi is disrupted, it causes illness and disease. An imbalance in any of the 14 main meridian channels causes an alteration in the flow of Qi through the entire body. This can result in a lessening of the body's innate ability to heal itself and express maximum health potential

I do not offer to diagnose or treat any disease or condition other than the quality, quantity and balance of Qi. However, if during the course of an acupuncture examination I encounter non-acupuncture or unusual findings, I will advise you. If you desire advice, diagnosis or treatments of those findings, I will recommend that you seek the services of a health care provider qualified to treat those problems.

Regardless of what a disease is called, I do not offer to treat it. Nor do I offer advice regarding treatment prescribed by others. The ONLY practice objective is to detect and correct imbalances within Meridian pathways using Acupuncture and Chinese medical techniques. This can help to facilitate healing and a potentially lead to a full expression of your body's innate wisdom.

I, _____ have read and fully understand the above statements.

All questions regarding the acupuncturist's objectives pertaining to my care in this office have been answered to my complete satisfaction. I therefore accept acupuncture care on this basis.
